

Your Opinions: Downtown B. C. is coming alive

February 10, 2011

It is beginning to happen in downtown: more cars, more people, new businesses, businesses relocating, people on the streets, activity everywhere.

It is the beginning and it is exciting to see downtown begin to emerge from a long, long period of hibernation. Spring is coming and hopefully with it, growing activity and business in our downtown.

Thanks to the long, hard work of Kellogg Co., the Downtown Partnership, BCU, Battle Creek Community Foundation and many other unnamed instigators that support and encourage renewal. Celebrate a renewed Battle Creek.
