

**Joseph M. Stewart, CEO and Founder, Stewart Industries**  
**Erick Stewart, President, Stewart Industries**

**A WORD FROM OUR FAMILY**

STEWART Industries is about a Dream – in which a father and son dared to believe that they could create a viable and sustainable mainstream business entity. Our dream turned into a reality with the assistance of BCU and the Battle Creek community. Because of its “Yes We Can” attitude we continue to be a strong support organization for our village.

As a minority owned organization, we have positioned our company, through a tightly focused business plan, to become a preferred supplier of sub-assembled components, light manufacturing and inspection solutions in the automotive industry. Our Organization is guided by our vision, our philosophy and our shared values. Within those shared values we hold close, the depth of our PRIDE, the performance of our ASSOCIATES, and the consistency of our PROCESSES. Our vision, philosophy and those values are the cornerstones of our day-in and day-out commitment to providing quality results to all of our customers. We strive to be the best in every category we enter while exceeding our customers broadest expectation!
